

## Website– rift-cnrs.fr

### Objectives

- Centralise group information
- Provide information on the GDR's activities and events
- Monitor scientific news (feedback from the field, publications)
- Provide a watch on national and international calls for proposals
- List of group members (directories and main centres / subjects of study)

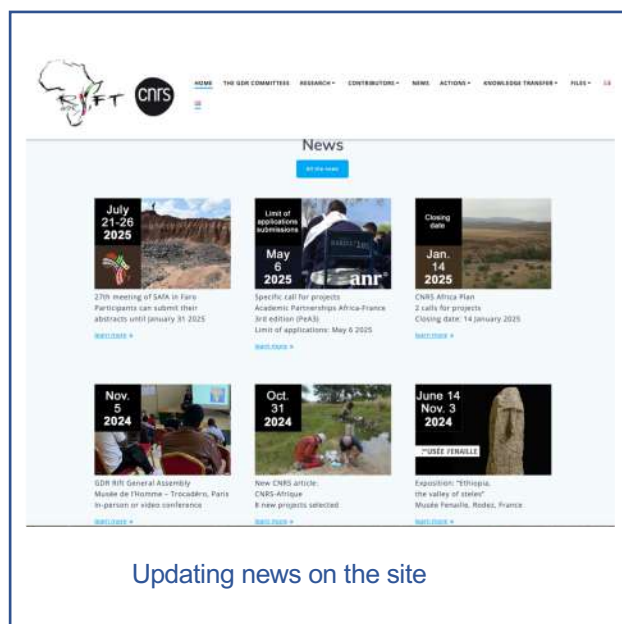

### Achievements

- Operational since March 2021 ([site link](#))
- Online membership available (password protection)
- >60 news items in 4 years
- + More than 40,000 visits in 2023 and almost 64,000 in the last 12 months
- 8 main sections (Home, Committee, Research, Participants, News, Actions, etc.)

### Budget & operations

- < €200 per year (website hosting and storage space)
- Creation and maintenance through PALEVOPRIM (S. Riffaut)
- Regular interaction between the GDR director and S. Riffaut to maintain an adequate and rhythmic feed

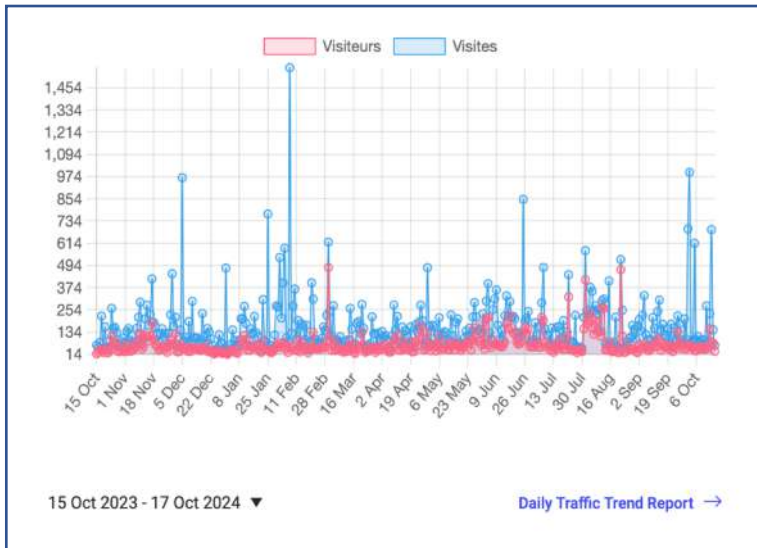

Updating news on the site

### Reflexive assessment

- Maintenance only possible thanks to the commitment of 2 people
- Central tool of the GDR, indispensable to the community
- Time-consuming, as it requires regular monitoring (keeping up to date with news, AAPs and seminars, updating illustrations, photos and texts)
- Need to outsource certain tasks for better follow-up with the agent in charge of the site

## Website (additional)

Number of visits to the site over one year

The site includes a directory with personal details, supplemented by search tools by institute, discipline or research area.

Example of a section proposed by the GDR Rift to keep its members up to date and dynamic
